

Basketball: Wingspan

Activity: Measure your wingspan by stretching your arms to the side and measuring from fingertip to fingertip. Then, measure your height by standing up straight and measuring from the bottom of your foot to the top of your head. Use the graph below to plot the difference between your measurements and the measurements of your classmates.

My wingspan measures _____ inches.

My height measures _____ inches.

The difference between my height and wingspan is _____ inches.

Athletes	Average Wingspan	Average Height	Animals	Average Wingspan	Average Height
NBA Player (Center)	7'4"	6'10"	Albatross	11'	3'6"
MLB Player (First Baseman)	6'8"	6'3"	Eagle	6'	2'4"
Women's Volleyball Player (Middle Blocker)	6'8"	6'3"	California Condor	9'6"	3'10"

Difference Between Height and Wingspan
